

**Metallic Minerals Announces Closing of Final Private Placement Financing**

NOT FOR DISTRIBUTION TO UNITED STATES NEWSWIRE SERVICES

OR FOR DISSEMINATION IN THE UNITED STATES

**26 August 2025 – Vancouver, BC – Metallic Minerals Corp. (TSX.V: MMG; OTCQB: MMNGF; FSE: 9MM1) ("Metallic Minerals" or the "Company")** is pleased to announce the closing of its flow-through share offering of 4,800,000 common shares (the "**Flow-Through Shares**") at a price of **\$0.27** per Flow-Through Share for gross proceeds of approximately **\$1.3 million** (the "**Flow-Through Offering**"). The Flow-Through Offering follows the previously closed brokered and non-brokered offerings on July 30, 2025 and August 25, 2025 for aggregate total gross proceeds of **\$8 million**.

Proceeds from the Flow-Through Offering are intended to be used towards eligible Canadian Exploration Expenses, within the meaning of the Income Tax Act of Canada, at the Company's high-grade Keno Silver project adjacent to Hecla Mining's Keno Hill Silver operations, and the company's Klondike Gold Alluvial Royalty portfolio in Canada's Yukon Territory.

Greg Johnson, Chairman and CEO of Metallic Minerals commented, "We are excited to have completed these financings totaling \$8 million with strong participation from our existing shareholders and strategic investors, including Newmont Corporation, and many new investors whom we welcome to our register. The full participation of our board and management underscores our collective confidence in the Company's path forward. This funding provides the capital to advance our cornerstone La Plata copper-silver-gold-PGE project and Keno Silver project at a time of strengthening fundamentals and strategic importance of these critical metals, while continuing to build out production on our gold royalty portfolio. With gold, silver and copper at or near record levels, and large-cap producers trading at multi-year highs, we see an exceptional opportunity for venture-stage companies such as Metallic Minerals to deliver outsized returns and compelling leverage to the emerging bull market in U.S. and Canadian critical minerals. We are diligently advancing our active programs, which are designed to deliver multiple milestones and create significant shareholder value in the year ahead."

The Flow-Through Shares will be subject to a holding period of four months and one day from the date of issuance. Finders' fees of \$48,000 were payable to Cormark Securities Inc. and Canaccord Genuity Corp. on a portion of the Flow-Through Offering. The Flow-Through Offering remains subject to the final acceptance of the TSX-V.

The Flow-Through Shares have not been, and will not be, registered under the U.S. Securities Act or any U.S. state securities laws, and may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons, absent registration or any applicable exemption from the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws.

- 5) Swiss Mining Institute Conference - Zurich, Switzerland, March 18-19, 2026. For information, [click here](#).

**About Metallic Minerals**

Metallic Minerals Corp. is a resource-stage mineral exploration company, focused on copper, silver, gold, platinum group elements, and other critical minerals at the La Plata project in southwestern Colorado and the Keno Silver project adjacent to Hecla Mining's Keno Hill silver operations in the Yukon Territory. The Company is also one of the largest holders of alluvial gold claims in the Yukon and is building a production royalty business by partnering with experienced mining operators.

Metallic Minerals is led by a team with a track record of discovery and exploration success on several major precious and base metal deposits in North America, as well as having large-scale development, permitting and project financing expertise. The Metallic Minerals team is committed to responsible and sustainable resource development and has worked closely with Canadian First Nation groups, U.S. Tribal and Native Corporations, and local communities to support successful project development.

**Forward-Looking Statements**

This news release includes certain statements that may be deemed "forward-looking statements". All statements in this release, other than statements of historical facts including, without limitation, statements regarding potential mineralization, title, expected results of operations, as well as financial position, prospects, and future plans and objectives of the Company are forward-looking statements that involve various risks and uncertainties. Although Metallic Minerals believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Forward-looking statements are based on a number of material factors and assumptions. These assumptions include, inter-alia, the continued interest and strategic alignment of certain investors such as Newmont Corporation ('Newmont'); however, Newmont's participation in the Offering should not be construed as a commitment to future funding, operational involvement, or endorsement of the Company's long-term plans. Factors that could cause actual results to differ materially from those in forward-looking statements include failure to obtain necessary approvals, changes in project parameters as plans continue to be refined, results of future resource estimates, future metal prices, availability of capital and financing on acceptable terms, general economic, market or business conditions, risks associated with regulatory changes, defects in title, availability of personnel, materials and equipment on a timely basis, accidents or equipment breakdowns, uninsured risks, unanticipated environmental impacts on operations and costs to remedy same and other exploration or other risks detailed herein and from time to time in the filings made by the Company with securities regulators. Readers are cautioned that mineral resources that are not mineral reserves do not have demonstrated economic viability. Mineral exploration, development of mines and mining operations is an inherently risky business. Accordingly, the actual events may differ materially from those projected in the forward-looking statements. For more information on Metallic Minerals and the risks and challenges of their businesses, investors should review their annual filings that are available at [www.sedarplus.ca](http://www.sedarplus.ca).
